

Plotting Line Segments on Coordinate Planes Worksheet 2

Name _____

Score _____

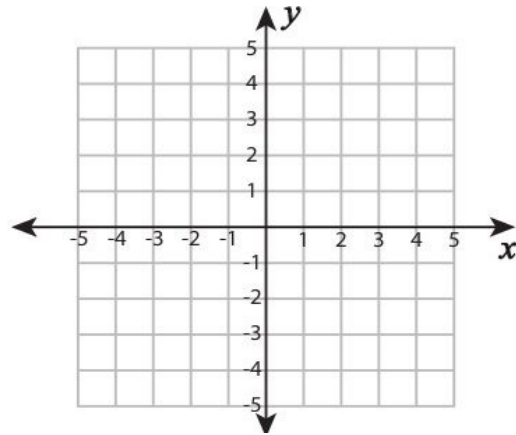

Plot each set of ordered pairs. Join the points and find the length of the line segment.

1) $(-3, 1), (-4, 1)$

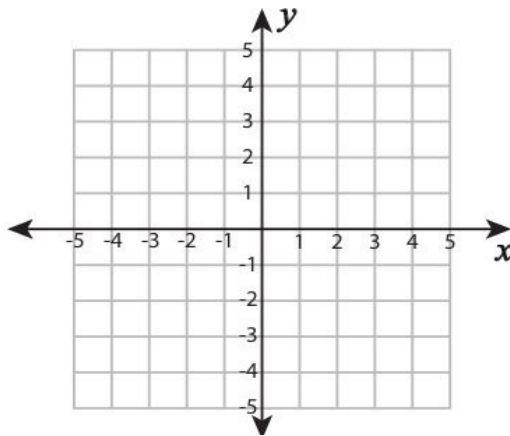

Length of the line segment = _____

2) $(-4, 3), (3, 3)$

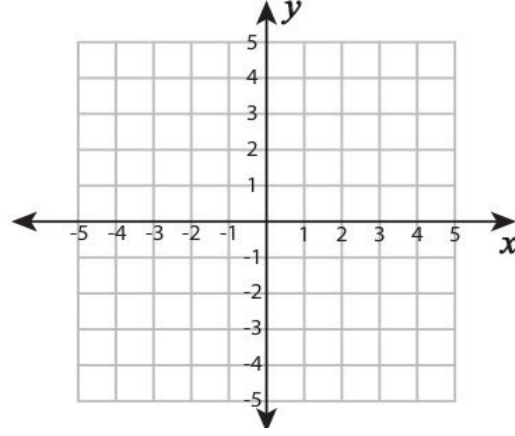

Length of the line segment = _____

3) $(-4, 2), (-4, -4)$

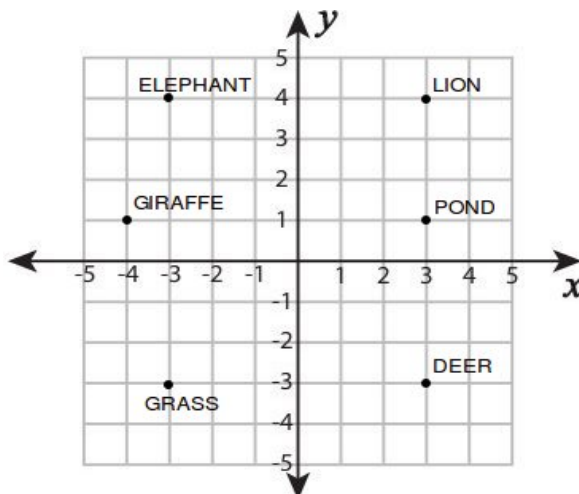

Length of the line segment = _____

4) $(-1, -3), (3, -3)$

Length of the line segment = _____

5) How far an elephant is away from the grass?

6) Which is closer to the pond, giraffe or deer?

7) How many units does the lion move to catch the deer?
