## Calculator Fun - Step-by-Step Lesson

What word does the following problem generate when you turn your calculator upside down?

$$4,882 \times 528 + 4,215,212$$

### Explanation:

Step 1: Follow the order of operations.

$$742 \times 6609 + 1,281,630$$

Multiplication before addition:  $742 \times 6609 = 4,903,878$

Now find the sum :  $4,903,878 + 1,281,630 = 6,185,508$

Turn the Calculator Upside Down: 6,185,508

You read: BIGBOSS

618 = Big            5508 = Boss

Big Boss
