Operations With Units of Measure - Step-by-Step Lesson

$$\begin{array}{r} 58 \text{ pt } 25 \text{ fl oz} \\ X \quad 10 \\ \hline \end{array}$$

Explanation:

$$\begin{array}{r} 58 \text{ pt } 25 \text{ fl oz} \\ X \quad 10 \\ \hline 580 \text{ pt } 250 \text{ fl oz} \end{array}$$

$$1 \text{ pint} = 16 \text{ ounces}$$

$$250 \text{ ounces} = 250/16 = 16 \text{ pints}$$

$$16 \text{ pints} + 580 \text{ pints} = 596 \text{ pints}$$
