

Name _____

Date _____

Sums of Money Step By Step Lesson

Andy has \$6.72. Mike has \$3.29. How much money do they have together?

Restated: \$6.72

 + \$3.29

Explanation: When finding the value of sums of money, it is much like adding decimal values. For that reason, we add from the right to the left.

Step 1)

				1	
	\$	6	.	7	2
+	\$	3	.	2	9
			.		1

Step 2)

		1		1	
	\$	6	.	7	2
+	\$	3	.	2	9
			.	0	1

Step 3)

		1		1	
	\$	6	.	7	2
+	\$	3	.	2	9
	1	0	.	0	1

Final answer: \$10.01
