## Simple Differences of Money Step By Step Lesson

Tara had \$9.27. She goes to the sporting goods store and bought a can of tennis balls for \$4.82. How much money did she have left?

Restated: \$9.27

- \$4.82

Explanation: Much like addition we start at the right and subtract right to left.

Step 1)

	\$	9	.	2	7
-	\$	4	.	8	2
			.		5

Step 2)

		8		12	
	\$	<del>9</del>	.	<del>2</del>	7
-	\$	4	.	8	2
			.	4	5

In the ten cents column, we can't subtract 8 from 2. We must borrow a 1 from the dollar place.

Step 3)

		8		12	
	\$	<del>9</del>	.	<del>2</del>	7
-	\$	4	.	8	2
		4	.	4	5

**Final Answer: \$4.45**
