Comparing Money in Your Pocket Step By Step Lesson

Does Louis or Silva have more money in their pocket?

Louis
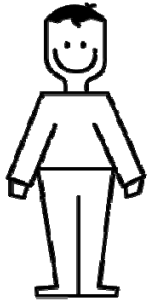

Silva

Explanation: We need to use the chart below to determine the value of each coin.

	= 1¢			= 5¢
	= 10¢			= 25¢

Step 1) Now let's label the values of each coin:

Louis

25¢   5¢   1¢   10¢   25¢

Silva
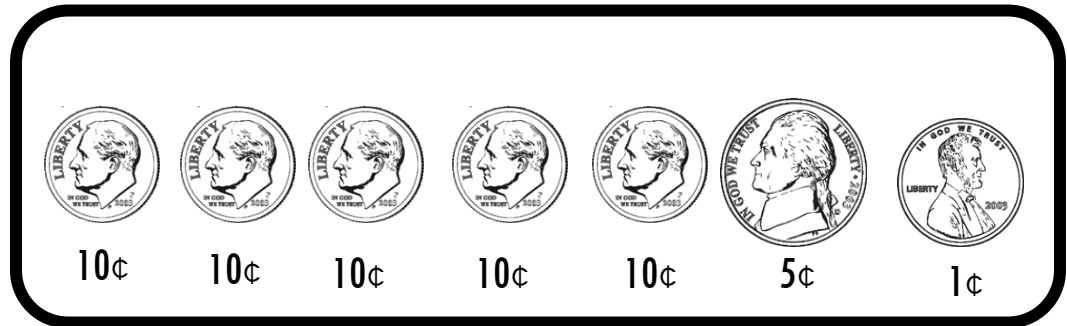

10¢   10¢   10¢   10¢   10¢   5¢   1¢

Step 2) Add the coin values to find the total in each person's pocket.

Louis = 25¢ + 5¢ + 1¢ + 10¢ + 25¢ = 66¢

Silva = 10¢ + 10¢ + 10¢ + 10¢ + 10¢ + 5¢ + 1¢ = 56¢

Louis has 10 more cents in his pocket than Silva.
