Converting Money Values- Step-by-Step Lesson

Find the correct value:

a) Convert \$2.89 to cents. _____

b) How many nickels would it take make 30 cents? _____

Explanation:

a) We have to convert a dollar value to cents.

As we know that 1 dollar is equals to 100 cents.

$$2.89 \times 100 = 289 \text{ cents}$$

So the answer is 289 cents.

b) We have to convert the value in cents to the number of total nickels.

As we know, 5 cents is equals to 1 nickel.

$$30 \div 5 = 6$$

The answer is 6 nickels.
