

Missing Factors: Basic Facts #1

$6 \times \underline{\quad} = 30$	$\underline{\quad} \times 4 = 36$	$5 \times \underline{\quad} = 55$
$\underline{\quad} \times 9 = 72$	$\underline{\quad} \times 4 = 12$	$7 \times \underline{\quad} = 42$
$\underline{\quad} \times 9 = 54$	$9 \times \underline{\quad} = 99$	$\underline{\quad} \times 12 = 108$
$8 \times \underline{\quad} = 8$	$\underline{\quad} \times 6 = 30$	$\underline{\quad} \times 6 = 72$
$6 \times \underline{\quad} = 48$	$4 \times \underline{\quad} = 28$	$5 \times \underline{\quad} = 35$
$\underline{\quad} \times 2 = 22$	$6 \times \underline{\quad} = 72$	$\underline{\quad} \times 8 = 48$
$\underline{\quad} \times 12 = 132$	$12 \times \underline{\quad} = 120$	$11 \times \underline{\quad} = 88$
$11 \times \underline{\quad} = 110$	$\underline{\quad} \times 7 = 21$	$4 \times \underline{\quad} = 48$
$9 \times \underline{\quad} = 54$	$\underline{\quad} \times 5 = 50$	$\underline{\quad} \times 9 = 18$
$2 \times \underline{\quad} = 16$	$\underline{\quad} \times 12 = 132$	$4 \times \underline{\quad} = 8$
