2-Step Order of Operations - Guided Lesson Explanation

As we saw in the lesson, we will process the operations using the acronym PEMDAS as guide left to right.

1. Parenthesis
2. Exponents
3. Multiplication
4. Division
5. Addition
6. Subtraction

Explanation#1

1. $(84 \div 6) = 14$ Division
2. $14 + 9 = 23$ Addition

Explanation#2

1. $(15 - 7) = 8$ Parenthesis
2. $8 + 22 = 30$ Addition

Explanation#3

1. $(90 \div 15) = 6$ Parenthesis
2. $6 + 11 = 17$ Addition
