### Mixed Basic Operations Word Problems - Guided Lesson

Complete the following problems:

1) Ron has a baking supplies shop. He sold 540 kg of sugar in February and he sold 211 kg of sugar in March. How much sugar did he sell in total over those months?

2) Mr. White is running many different classes all over the country. In New York, he has 7 classes. Each class has 50 students. How many students are in Mr. White's New York classes?

3) A maid works in 70 rooms of a hotel each day. If she works in 47 rooms in the evening, how many rooms does she work in during the morning?
