Dividing Mixed Numbers Graphic Organizer

1. State the problem:

$$\boxed{}\frac{\boxed{}}{\boxed{}} \div \boxed{}\frac{\boxed{}}{\boxed{}}$$
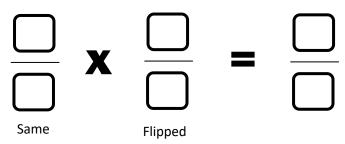

2. Change each value to an improper fraction.

$$\frac{\boxed{}}{\boxed{}} \div \frac{\boxed{}}{\boxed{}}$$

3. Multiply by the reciprocal of the divisor and simplify.

$$\frac{\boxed{}}{\boxed{}} \; X \; \frac{\boxed{}}{\boxed{}} = \frac{\boxed{}}{\boxed{}}$$

Same   Flipped

4. If the fraction is improper divide the numerator by the denominator.

$$\boxed{} \overline{\smash{\big)}\,\boxed{}}$$ Remainder: _____

5. If needed, convert to a mixed number.

$$\boxed{}\frac{\boxed{}}{\boxed{}}$$
