# Standard Visual Patterns Step By Step Lesson

Circle the picture that should appear next based on this pattern.

_____

or   or

Explanation:

Step 1) Assign Numbers - The easiest way to break down picture patterns is to assign a number value to each picture. You can choose any number for any image.

**Here is a quick way to assign numbers for these pictures:**

1 =   2 =   3 =

Step 2) Replace the pictures with the assigned numbers-

1 - 2 - 3 - 1 - 2 - ?

Step 3) Determine the number that should come next-

1 - 2 - 3 - 1 - 2 -

pattern

This shows us that it is a 1-2-3 pattern. #3 should come after #2.

#3 is the image that should come next. The answer is:
