Rounding With Basic Math Operations Guided Lesson

Note: There are duplicate problems, please read the directions carefully.

For questions 1 and 2, perform the operations below and then round your final answer to the highest available place value.

1) $923 + 87 - 267$

2) $96 - 81 \div 9$

For questions 3 and 4, round the values to the nearest tens place and then perform the operations.

3) $923 + 87 - 267$

4) $96 - 81 \div 9$
