

Name _____

Date _____

One Digit from Two Digits Subtraction - Step-by-Step Lesson

Subtract the digits below:

$$\begin{array}{r} 89 \\ - 7 \\ \hline \end{array}$$

**Explanation:**Subtract $9 - 7 = 2$.

Write down "2" in the ones column.

$$\begin{array}{r} 89 \\ - 7 \\ \hline 2 \end{array}$$

Now we calculate the value of the tens column. Since there is no number present in that column to remove or subtract from the 8, it is equal to subtracting 0 from that column: $8 - 0 = 8$

$$\begin{array}{r} 89 \\ - 7 \\ \hline 82 \end{array}$$

Answer is: 82
