

## Subtraction with Regrouping Guided Lesson Explanation

7 14

1) 
$$\begin{array}{r} 84 \\ - 38 \\ \hline 46 \end{array}$$

A) The 4 in the ones column is too small; take a ten from the tens place.

B) Subtract the remaining digits.

2 12

2) 
$$\begin{array}{r} 532 \\ - 327 \\ \hline 205 \end{array}$$

A) Let's add some space in this problem to see it properly.

B) The ones place is too small. We will borrow from the tens place.

C) Subtract the remaining digits.

7 14

3)  $\begin{array}{r} 846 \\ - 589 \\ \hline \end{array}$

$\begin{array}{r} 846 \\ - 589 \\ \hline \end{array}$

A) The ones and tens place are both too small for the numbers being subtracted.

B) Start by borrowing for the tens place.

13

7 14 16

$\begin{array}{r} 846 \\ - 589 \\ \hline \end{array}$

$\begin{array}{r} 846 \\ - 589 \\ \hline \end{array}$

2 5 7

C) We will now borrow from the tens place for the ones place.

D) We will now subtract the remaining numbers.
