

Name _____

Date _____

Annual Calendars - Guided Lesson Explanation

Explanation#1

We count each month in the calendar.

January, February, March, April, May, June, July, August, September, October, November, December

We found 12 months in a year.

Explanation#2

We have to count the months of 30 days.

April, June, September, November.

4 months contain 30 days.

Explanation#3

First we find the month of March, then we count Saturdays carefully.

March	
Su	3 10 17 24 31
Mn	4 11 18 25
Tu	5 12 19 26
We	6 13 20 27
Th	7 14 21 28
Fr	1 8 15 22 29
Sa	2 9 16 23 30

5 Saturdays are in the month of March.
