

Name _____

Date _____

Time Differences Lesson

Write the time for a half-hour later and another half-hour later.

Now	Half hour later	Another half hour later
4 : 00		

First, look at the current time i.e. 4:00

A half hour = 30 minutes

Half hour later = Time now + 30 minutes

$$= 4:00 + 30 = 4:30$$

Now	Half hour later	Another half hour later
4 : 00	4:30	

Half hour + half hour = 1 hour

Or,

30 minutes + 30 minutes = 1 hour

Now, Another half hour later = Time of half hour later + 30 minutes

$$= 4:30 + 30 = 5:00$$

Now	Half hour later	Another half hour later
4 : 00	4:30	5:00
