Telling Time – By 5 Minutes Lesson

What time is it? Answer using digits and a colon (for example, *11:58*).

The shorter hand is the hour hand. It tells you the hour. The longer hand is the minute hand. It tells you the minutes.

First, find the hour hand. The hour hand is at 5. The hour is 5. Next, find the minute hand. To find the number of minutes, count the minutes by reading the 60 small tick marks starting at the 12. Each tick mark is equal to a minute. The minute hand is at top of the hour. The time is 5 o'clock. This clock shows 5:00.

5:00
