

Name _____

Date _____

Time in Words- Step-by-Step Lesson

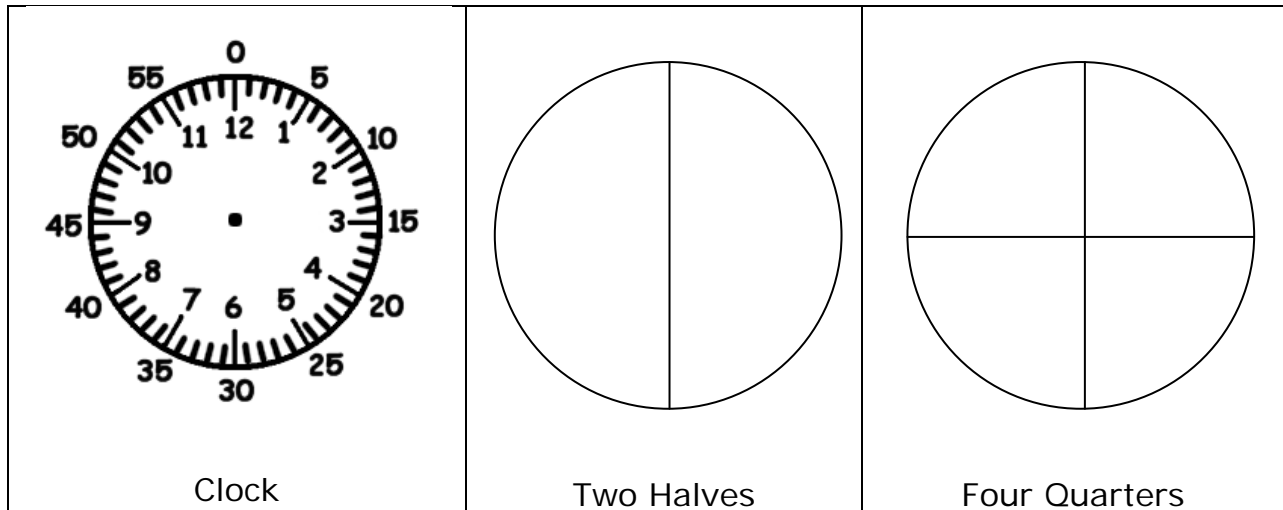

Write the time indicated in number format:

1) Half-past Ten o'clock _____

Write the time in word format:

2) 8:30 PM _____

Explanation:

We have two halves each half indicates 30 minutes.

There are four quarters and each quarter indicates 15 minutes.

1) Half means 30 minutes past the given time. So the answer is 10:30

2) 8:30 pm means 30 minutes past after 8.

The time in words would be half-past eight o'clock. Since the question wasn't descriptive enough, eight-thirty would also be acceptable.
